EMCOL APPOINTS LICENSEE IN NIGERIA

Emcol International has appointed a new manufacturing licensee in Africa.

Portland Renovations and Construction Ltd has become Emcol's licensee for Nigeria. The company will produce Emcol IRR in Lagos for sales to local government agencies for the repair and rehabilitation of roads throughout Nigeria.

Emcol IRR is a cold-laid instant repair material for roads. Formulated to withstand the heaviest of traffic immediately the repair is completed, Emcol IRR can be used in all weather conditions without the danger of rutting, marking or depression. Applied straight from the pack into potholes or cracks in the road pavement surface, Emcol IRR requires no tack coats, mixing, heating, over-banding or special equipment.

Portland Renovations and Construction joins a growing network of Emcol manufacturing licensees on the African continent, including companies in Botswana, Kenya and Uganda. Emcol IRR is manufactured under license in over twenty countries around the World.
